We develop
intellectually audacious,
socially responsible
citizens of the world.

A Message from the Director...

"Here at AISC, our mission is to develop intellectually audacious, socially responsible citizens of the world. On our small, quaint island of green on the fringes of bustling Conakry, the teachers, staff and parents have set out as a village to make our students feel safe, happy, fully engaged, and responsible for their learning. We celebrate our students and work together to create a well-rounded learning environment on our campus. Through their experiences, we envision that students will use their voices to serve as lifelong advocates for Guinea and Africa."

Scholarship Opportunities:

A limited number of one year scholarships amounting to \$15,000 may be available to certain, qualified, English-speaking students.

Arts & Crafts
Coding Jr
Track
Swimming

Secondary School

Coding
Swing Dance
Basketball
Poetry
Chorus
Debate

We are proud to be the only accredited English-medium school in Guinea, and offer an American-style education based on the AERO Standards in a decidedly international context. From Kindergarten through Grade 12, early childhood on up to a U.S. high school diploma, we engage with children and their families to provide a solid education that develops critical thinking, relationship building skills, imagination, and compassion.

The Core Values of AISC:

- Learning is a priority for all children.
- The learning process both nurtures and challenges.
- Learning is best in a safe and disciplined environment.
- Education is a partnership among parents, the school, and community.
- All individuals have a right to be treated with respect and dignity.
- Diversity matters not in and of itself, but because people matter, and people are infinitely diverse.
- Leveraging emerging technology and communicating in at least two world languages are essential.

Our supportive Board of Trustees is dedicated to making AISC the best it can be.
